Vision and Purpose: Ittsy's vision is to help its customers grow their businesses by leveraging its services. From vision to life,one idea at a time.

Our Service Offerings:

Ittsy offers the following services:

1. Data Integration
2. Solution Architecture
3. AI & Gen AI
4. SaaS (Software as a Service)
5. API Integration

Solution Architecture: Build a solution that meets your design requirements, secure and scalable enough to meet the evolving needs.

Saas: Utilize the power of the internet to unleash your software for the whole world to use.

Data/API Integration: No matter the source of your data, we can seamlessly integrate it anywhere.

Our Promise: We take great pride in delivering only the highest quality solutions tailored to our clients requirements

Which solution is right for you?

We take your ideas and transform them into pathways that pave the way for the expansion of your business. Contact an Ittsy professional to go through your requirements and chalk out a plan.

Details about AI & GEN AI:
AI and Gen AI have paved the way for Artificial Business Intelligence (ABI), driving business insights and growth. While AI has existed for years, Gen AI has revolutionized the field. We customized Artificial Business Intelligence and machine learning solutions.

Beneficiaries of AI & Gen AI are:

Business Users
Executive Management Team
Business Managers
Data Analysts

Here is how Business Managers can get benefits of AI & Gen AI
Business Users can interact with the data and other contents to conduct quality assurance and testing and help improve functionality and overall user experience.
Ittsy can assist you to make the most out of your business in a cost-effective and most efficient way through the use of this technology combo. Connect your internal resources regardless of the resource type and get answers quickly, interactively, and on-demand.

We can scan hundreds of thousands of documents within subseconds or mine data from any of your datastore and respond to your questions about the content without compromising security.

Here is how Executive Management Team can benefit from AI/Gen AI

Members of the Executive Teams can get business insights from the palm of their hands whether they are chairing a meeting in the office or they are traveling for a business trip outside.

Here is how Business Managers can benefit from AI/Gen AI

Business Managers can focus on what they do the best: grow business. They don't need to be technical. They can simply ask questions in plain English about any of the business domains they are leading and get answers quickly to move on with their business objectives and priorities.

Here is how Data Analysts cana benefit from AI/Gen AI

Data Analysts can slice and dice the data to identify trends and patterns without writing any piece of code.

Solution Architecture:
In the Solution Architecture space, this is how we will approach our solutioning.
Regardless of the type of data (be it structured, semi-structured or unstructured, Big Data or traditional data) we will Review, Rebuild or build from scratch a solution that meets your design requirements, secure and scalable enough to meet the evolving needs. We will have meetings one on one with subject matter experts or group discussions to understand the business goals and requirements that the technology solution needs to address.
Design high-level structure, components, modules, interfaces, and data flows to ensure that the solution aligns with the organization's goals and technical standards.
With your own technology stack or let Ittsys professionals recommend the appropriate technologies, frameworks and tools that best fit the requirements of the solution.
Ittsy professionals will create detailed technical specifications, architecture diagrams, and documentation that outline the design and implementation details of the solution which will serve as a guide for developers and other team members.

Ittsy will also ensure that the solution meets quality standards, performance requirements, and compliance regulations.
Ittsy will assess and mitigate risks associated with the solution, such as technical challenges, security vulnerabilities, and scalability issues and proactively identify potential risks and develop strategies to address them.

Engage/Re-engage Ittsy professionals to stay up-to-date on emerging technologies, industry trends, and best practices to continuously improve the architecture and design of solutions.

SaaS:

SaaS or Software as a Service is a cloud-based model that offers access to data and reports online, with no upfront costs for software, hardware, maintenance, or upgrades. If you are looking to reduce IT support or quickly deploy applications and scale up or down its resources so that you can focus more on your core business functions, then Ittsy can help you achieve that goal.

You just describe your problem and critical business objectives, we will lay out the plan and execute it for you. Worry free support available 24/7 as well.

Data Integration Service:

Data integration involves collecting data from multiple sources and loading it into target systems. A clear definition of target systems is essential for accurate business logic processing.

Ittsy has the expertise and experience in any leading data integration platforms but our product of reliable choice and recommendation would be Talend Data Integration platform. It offers a robust suite of tools to connect, access, and transform both standard and Big Data in multi-cloud and on-premises environments. More than 1000 connectors and components allow integration with virtually any data source. Other major data integration tools we provide solutions on are Informatica Power Center and IBM Infosphere also known as Datastage.
A good integration strategy is to explicitly define your target systems as the business logic processing may depend on it.
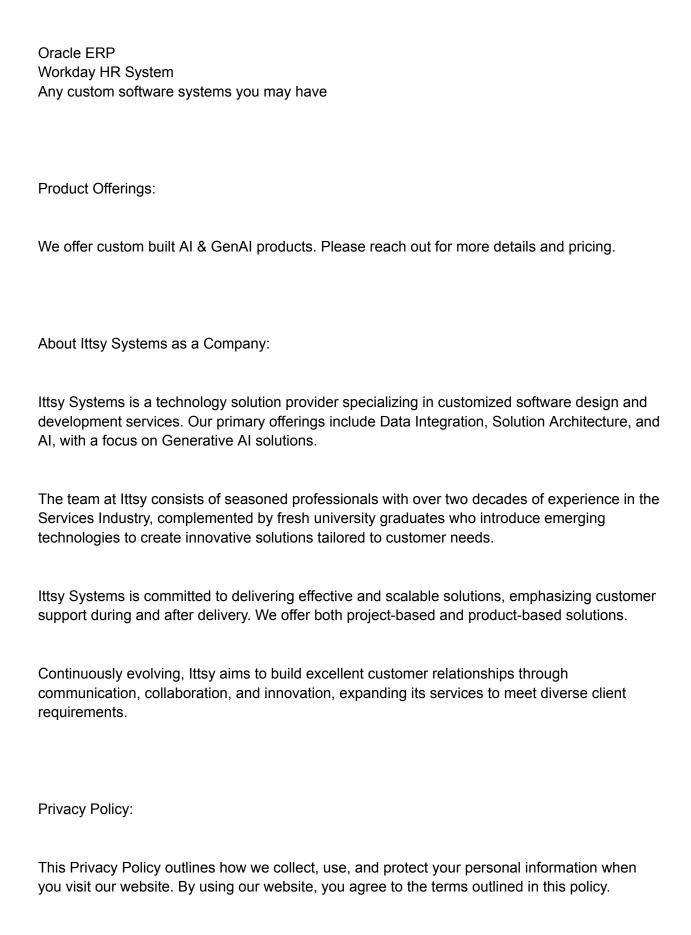

API Integration Service:
Ittsy offers API Integration services as APIs are crucial nowadays, acting as middleware to separate frontend and backend. They enable systems to interact with data. Ittsy can develop REST or SOAP APIs for integration with your systems which could be either on of these
Salesforce CRM
Microsoft CRM
Workforce ADP
SAP Succcessfactor, Business Warehouse or any ecosystem

Oracle ERP
Workday HR System
Any custom software systems you may have

Product Offerings:

We offer custom built AI & GenAI products. Please reach out for more details and pricing.

About Ittsy Systems as a Company:

Ittsy Systems is a technology solution provider specializing in customized software design and development services. Our primary offerings include Data Integration, Solution Architecture, and AI, with a focus on Generative AI solutions.

The team at Ittsy consists of seasoned professionals with over two decades of experience in the Services Industry, complemented by fresh university graduates who introduce emerging technologies to create innovative solutions tailored to customer needs.

Ittsy Systems is committed to delivering effective and scalable solutions, emphasizing customer support during and after delivery. We offer both project-based and product-based solutions.

Continuously evolving, Ittsy aims to build excellent customer relationships through communication, collaboration, and innovation, expanding its services to meet diverse client requirements.

Privacy Policy:

This Privacy Policy outlines how we collect, use, and protect your personal information when you visit our website. By using our website, you agree to the terms outlined in this policy.

Information We Collect as part of the Privacy policy are:

Personal Information: When you interact with our website, we may collect personal information such as your name, email address, and contact details. This information is collected with your consent and used to provide you with the requested services.

Usage Data: We may also collect non-personal information about your interactions with our website, including your IP address, browser type, and device information. This data is used to analyze website performance and improve user experience.

How We Use Your Information that we collect:

We use the information collected to personalize your experience on our website, respond to inquiries, and provide you with relevant information and updates. Your personal information may also be used for marketing and promotional purposes, such as sending newsletters or promotional offers. You have the option to opt out of receiving marketing communications at any time.

Data Security:

We are committed to protecting your personal information and have implemented security measures to safeguard your data from unauthorized access, disclosure, or misuse.

Third-Party Services:

We may use third-party services and tools on our website that collect data for analytics, advertising, or social media integration. These third-party services are governed by their own privacy policies and terms of service.

Your Rights on Privacy Policy:
You have the right to access, update, or delete your personal information stored on our website. If you have any questions or requests regarding your data, please contact us at info@ittsy.co

Changes to the Privacy Policy:

We reserve the right to update this Privacy Policy to reflect changes in our data practices or legal requirements. We recommend reviewing this page periodically for any updates.

If you have any questions or concerns about our Privacy Policy, please contact us at info@ittsy.co

Ittsy's Cookie Policy:
